Smart Talk - Nextcloud Integration Project

🎯 Smart Talk - AI-Powered Nextcloud Integration

What We Built:

iOS-Style Floating Widget

Modern glassmorphism design with smooth animations

AI Chatbot Integration

Intelligent responses for Nextcloud Talk assistance

Real-time Messaging

Seamless integration with Nextcloud Talk conversations

Group Management

Create and manage team conversations with video/audio calls

Key Innovation:

- **First floating widget for Nextcloud** - Revolutionary user experience
- **Global integration** - Appears on ALL Nextcloud pages
- **Professional iOS-quality design** - 60fps animations and micro-interactions
- **AI-powered assistance** - Context-aware chatbot for Talk features

Technical Stack:

- Vue.js 3 with Composition API
- PHP backend integration
- Docker containerization
- Modern CSS3 with hardware acceleration
